PEER project is up and running!

We are happy to announce the launch of PEER!

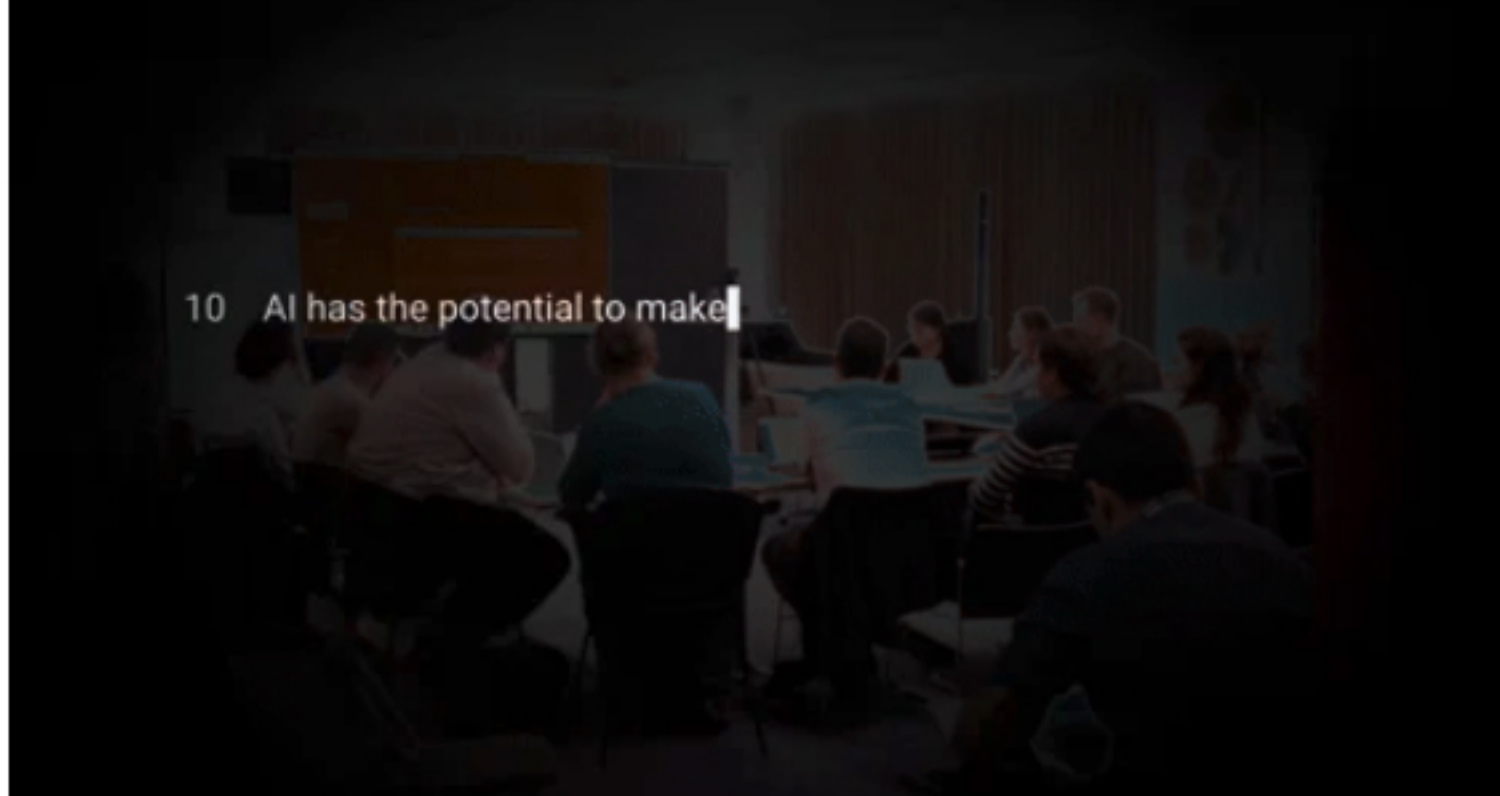

An EU-funded project that aims to develop an AI system that will redefine human-AI collaboration for complex decision-making. This collaborative approach extends beyond theoretical research. PEER will translate into practical applications that will empower individuals and organizations in real-world scenarios.

Check out snapshots from our team in action at the kick-off meeting for the launch of the four years Horizon Europe PEER project at Vrije Universiteit Brussel, Brussels, Belgium.

PEER - THE HYPER EXPERT COLLABORATIVE AI ASSISTANT - video introduction

We're thrilled to announce that a captivating **video showcasing the PEER project kick-off meeting held in Brussels, Belgium** is now live. It provides in a nutshell the vision of PEER and short explanation of certain components of the PEER project.

PEER @ Flanders Technology & Innovation days

PEER was presented at **Flanders Technology & Innovation days** on 20/03 and 22/03 at VUB and FARI in Brussels. We are very proud to be able to present our project's vision to school groups and public administration bodies at EU, national and local level to foster understanding and engagement.

PEER presentation @ ADRA-E Launch Event

On 22.02.2024, PEER stood shoulder to shoulder with other 53 remarkable initiatives at the ADRA-E Launch Event: showcasing the future of innovation in AI, Data, and Robotics. In this event Adra-e, AlonDemand, and the European Commission came together to unveil the new batch of projects funded under several Horizon 2023 and 2022 calls. **PEER was invited for a 2-minute pitch video presentations***. We're thrilled and thankful for the opportunity to showcase PEER's vision, objectives, and impact. A joint catalogue of all project will be coming out soon, stay tuned! (***PEER presentation min. 2:44:50**).
